Delivery not included with kennels

At Abwood the key word is **QUALITY**. All Abwood sheds are nailed, not stapled. All Abwood sheds feature treated timber, pressure treated floor bearers, galvanised hardware, toughglass and heavy duty mineral felt. **Rustic** sheds are constructed with 10mm overlap boards with 16mm butt jointed roof & floor. **Delux** sheds are constructed with 22mm kiln dried planed weather sheeting with tongued and grooved roof and floors. **Sheds are also available in Pressure Treated low maintenance timber**. These are priced at 25% onto the above Rustic or Delux prices. All timber sizes are nominal before machining. All shed sizes are approximate as timbers used are to the nearest metric equivalent. **All prices are inclusive of delivery, erection & VAT @ 13.5%.** Please note that Rustic sheds are very basic and can be damp in very wet weather. We would never recommend you store anything that might be affected by damp in a Rustic shed.
